

## WANT D. C. GIVEN BACK TO STATE OF MARYLAND

Central Labor Delegates Urge Move  
to Give Citizens of Washing-  
ton the Vote.

Believe It Only Logical Step if Con-  
gress Disapproves of Present  
Organic Act.

The Central Labor Union, at a meeting held last night, adopted a resolution urging Congress to cede the present territory of the District of Columbia back to Maryland, that the people of Washington may vote and live as citizens of that state. A copy of the resolution is to be sent to the joint select committee which is preparing its recommendation to Congress on the financial relations between the District of Columbia and the United States.

The declaration with respect to ceding the District to Maryland says: "If Congress believes the plan under which we are now working is detrimental to the interests of the country as a whole, it should pass a law ceding this territory back to the state of Maryland, allowing us to become a part of that state, where we would have representation in both houses of Congress, a right that we should enjoy as do the citizens of the balance of the country."

**Address by Prof. Moore**

Prof. Willis L. Moore, former chief of the United States weather bureau, addressed members of the union on "Reminiscences of the Weather Man."

Prof. Moore described the trials and pleasures of the weather man and told of the intricate problems that face one "who tries to tell citizens all over the country whether to take an umbrella or pair of snow shoes when they leave home in the morning."

"The weather man is right on an average, of about ninety times out of a hundred," said Prof. Moore.

"I wish and I don't suppose many of us will forget the prediction made on that memorable day in March when President Taft was to be inaugurated. At 7 o'clock of that morning we said at the weather bureau that it would be clear. That was wrong, but do you know that at 12 o'clock it was clear and we had only misread in our predictions by about five hours in time."

Prof. Moore told of men who had helped the bureau and drew upon characteristics of men who succeeded in getting the vital things out of life.

## DECLINES TO TAKE SIDES ON PROHIBITION ISSUE

Anacostia Association Instructs Fed-  
eration Delegate to Refrain  
From Voting on Question.

Prohibition in the District of Columbia is a question that should not be decided by civic organizations, according to action taken last night at a special meeting of the Anacostia Citizens' Association, held in the office of the George S. King Company, on Nichols avenue southeast, and Charles R. Burr, delegate to the Federation of Citizens' Associations, was instructed to refrain from voting when that question was presented at that body.

Dr. James A. Watson, vice president, presided, and the motion adopted was presented by William J. Latimer. There was much discussion of the subject, some of those speaking being Adolphus Gude, Charles R. Burr, Dr. R. A. Pyles, Charles Putnam, Hiram Butler, William V. Mahoney and Arthur Snell.

**Resolution Adopted.**

The resolution adopted declares that "the Anacostia Citizens' Association was organized for the purpose of recommending and procuring physical improvements in Anacostia and vicinity; the membership of the association is composed of citizens of all creeds and politics; a great many members, while in favor of temperance, are opposed to taking this matter up in this association, as it is calculated to cause disruption of the association and retard the good work we are doing, and this association several times heretofore has gone on record as being opposed to taking action on questions of temperance; therefore this association goes on record now and for all time as refusing to consider all questions pertaining to prohibition, religion or politics."

## MEMBERS OF AUSTRIAN CABINET MAY RESIGN

LONDON, November 26.—A dispatch to the Exchange Telegraph Company from Copenhagen says:

"The Wolff Bureau (the semi-official German news agency) says that several members of the Vienna cabinet will resign."

## BRITAIN MAY RECOVER TRADE.

South America Objects to Delay of  
United States Shipments.

Delays in the arrival of shipments from the United States at South American ports of importation may cause the trade to fall back into the hands of Great Britain, according to a letter received and made public by Secretary Redfield today from the Columbus Holt Works Company of Columbus, Ohio. The firm said that it made a shipment last August and the firm had just been informed of the arrival of the shipment this month. Shipments from the European countries arrive, according to the letter, after two or three weeks in transit. The firm believes that speed will govern the market for American products in South America.

## Take Kankakee to the Falklands.

NEW YORK, November 30.—The American Transatlantic Company, owner of the steamship Kankakee, recently seized by British warships, has received word through the State Department at Washington that British naval officers have put seventeen of the Kankakee's crew ashore at Montevideo. The others, including the officers of the Kankakee, were kept on board that vessel. The owners are informed that the Kankakee will be taken to the Falkland Islands for a hearing before a British prize court.

## Contest A. F. Eno's Will.

NEW YORK, November 30.—Objections to the probating of the will of Amos F. Eno, who died October 21 last, have been filed in the surrogate court by William F. Eno, the brother; Gifford and Amos R. E. Pinchot, nephews; Antonette E. Wood, his sister; Florence C. Graves and Mary P. Eno, nieces, and Henry Lane Eno, a nephew. By the will, it was said, Columbia University might receive as much as \$7,000,000, but the exception of Henry Lane Eno, who was left \$50,000. The contestants allege that undue influence was used in behalf of Columbia University.

## LINCOLN PARK CITIZENS HAVE A "LADIES' NIGHT"

Adopt Resolution Instructing Fed-  
eration Delegate to Vote for Dis-  
trict-Wide Prohibition.

Hear Argument by Mrs. Cotterill of  
Seattle in Favor of Woman  
Suffrage.

A ladies' night characterized the monthly meeting of the Lincoln Park Citizens' Association, held last night in the assembly room of the Church of the Nativity, Massachusetts avenue and 14th streets northeast. Prohibition of the liquor traffic in the District of Columbia was discussed and the association, by a unanimous vote, went on record as being in favor of it.

The delegate to the Federation of Citizens' Association was instructed to vote and work for the adoption of a resolution favoring prohibition, to be considered by the central organization next month.

A resolution favoring prohibition in the District was presented by Frederick Muller, chairman of a special committee, to which the matter had been referred at a previous meeting.

"The women got liquor out of the Capitol," he said, "and it's time the men were getting it out of the city."

In seconding the resolution, H. C. Coleridge said he favored prompt action.

"We have shied at the question long enough," he said, "and it is time for us to show our colors."

## Opposes Prohibition for D. C.

Herman J. Walz, although not a member of the association, but who became a member after the adoption of the resolution, asked to be permitted to say a few words. He said he represented interests allied with the liquor traffic and asked that action be postponed until a larger representation of the men of the association could take part in the debate. He represented that a "dry" city would mean a decrease in real estate values and increase taxes.

Mrs. Helen Dooley, Mrs. Susie Root Rhodes, Edmund Low and R. L. Smith were among others who favored the passage of the resolution, although Mrs. Dooley said she was in favor of local option and suggested that the people of the District should have the right to vote upon the question.

Mrs. Grace Benedict Cotterill of Seattle, Wash., and Mrs. Susie Root Rhodes, member of the board of education, addressed the association. Mrs. Rhodes discussed the Washington schools, while the visitor from the far west interested her hearers in a plea for woman suffrage.

Mrs. Rhodes told of the vocational

school work that is being done, and said she was particularly interested in the night schools. She praised the compulsory education law, and told of the falling off in attendance in the night schools in which foreigners are taught to speak English. The question of day of janitors was mentioned by Mrs. Rhodes, who suggested that increases in salaries should be made.

## Plea for Woman Suffrage.

Mrs. Cotterill, who said she was born in a state in which she automatically became a voter at the age of twenty-one years, told her hearers she was surprised when she first crossed an imaginary line, going into another state, and learned she had been disfranchised. "Up to that time," she declared, "I never knew what an anti-suffragist was."

With the advent of woman suffrage, Mrs. Cotterill stated, pink teas are turned into civic centers. Mrs. Cotterill told of reforms that had been accomplished in the west where women have a vote, and of improved school conditions.

R. L. Smith, chairman of the committee on schools, said he understood that a law for the Massachusetts avenue site for a new Eastern High School is going to be submitted. His committee favors that site, he said, but will be satisfied with any site in the Lincoln Park neighborhood. He hoped the question of selecting a site will be disposed of in time for Congress to appropriate money for the construction of the building, believing the Commissioners will ask for an appropriation for the approaching school year.

Mrs. Helen Dooley asked the association to endorse a move for the appropriation of \$100,000 for a new municipal lodging house designed to accommodate men and women. A signed petition favoring such a project was presented, and the association gave the project its hearty endorsement.

## Pay of Park Policemen.

"They are asking for \$2 a day," Mrs. Dooley stated, "but I am in favor of \$3 a day for them. They have as much right to be able properly to support their families, educate their children and go to church as others."

The question was referred to the committee on law and education.

Edmund Low presented a resolution asking for an increase in the pay of assistant janitors of public school buildings and one suggesting the raising of the age limit in the compulsory education law to sixteen years. The resolutions were referred to appropriate committees.

Several persons voiced vigorous complaints against the street car service on Capitol street. It was stated that a wait of ten or fifteen minutes is necessary at times. President D. A. Edwards said the question of inadequate service had been complained against some time ago, and said another investigation of the conditions will be made by the association.

Mrs. Pearl Windsor, Mr. Maurice Fitzgerald and the Lincoln Park Quartet contributed to the musical program. The ladies of the association served refreshments.

It matters little what it is that you want—whether a situation or a servant—a want ad in The Star will reach the person who will fill your need.

## Resinol Soap makes good complexions

When you wash your face do you realize that it is not enough to remove the dirt—that your skin needs something, healing influence to preserve the natural beauty of your complexion?

Ordinary toilet soaps do not assert this influence. Many of them contain free alkali, which tends to dry the skin and destroy its delicate texture. Even the best of such soaps can only clean, they cannot heal and protect the skin.

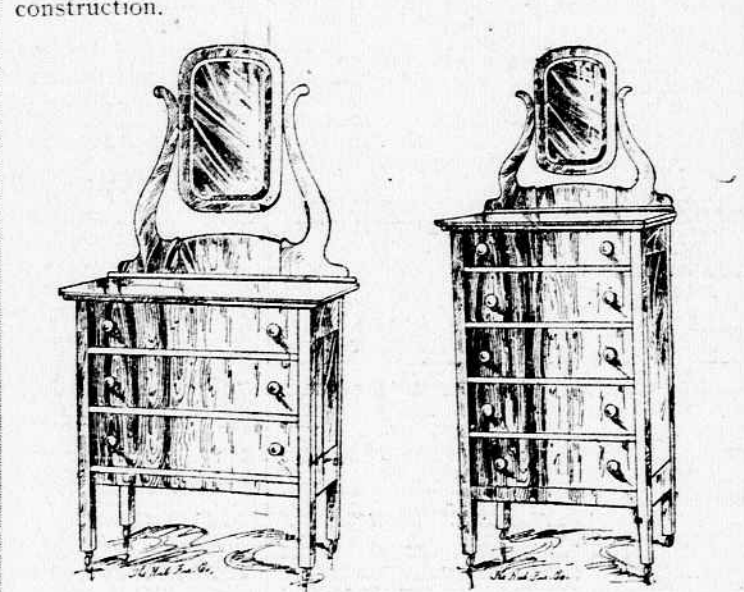

Resinol Soap, besides being an absolutely pure toilet soap, contains the same soothing, healing, antiseptic balsams as Resinol Ointment, the value of which in the treatment of skin affections is known throughout the medical profession.

That is why Resinol Soap does for the skin what cosmetics are supposed to do—it insures not only a clean skin, but a healthy skin, and a clear complexion.

Resinol Soap is sold by all dealers in toilet articles, or you can write to Dept. 15-P, Resinol, Baltimore, Md.

## Choice of These Solid Oak Dressers and Chiffoniers.. **\$7.75**

Solid Oak Dressers and Chiffoniers, with solid panel ends and French plate mirrors. Cheap in price, but not cheap in construction.
